1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12 and 23-35, drawn to A Modular Wall Panel Assembly, classified in class 439, subclass 214.

Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions because Group I does not require a harness and Group II could be use as a cable harness apart from any wall panel.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
